

LITHUANIAN SNOWSPORTS INSTRUCTORS ASSOCIATION

Selection Process for the Lithuania Demo Team 2023 (Period 2023-2027)

Lithuanian Snowsports Instructors Association (LSIA) announces the selection process for the "LSIA Interski Team" for the period from 2023 to 2027, focusing on representing LSIA at the Interski Congress 2023 in Levi, Finland and 2027 (TBC).

The selection process will take place on November 10-12, 2022, in Sölden, Austria.

Selection Committee with International Experience

TOMAS MICAL

[LSIA Education Head, Czech Interski Team 2015, Austrian Synchro Champion]

JIRI NOHEJL

[LSIA Technical Director, Czech Interski Team 2011/ 2015, NZSIA Examiner]

Selection Criteria for the Lithuania Demo Team

Instructor Ranking

Basis is the instructors' ranking, especially in ski analysis and teaching. Results from the audition in the above criteria are further supported by other significant criteria such as international experience, language skills, etc. The results of the instructors' ranking, resulting from the highest certification Level in Lithuania since 2018, are relevant for the selection.

Additional Criteria for Lithuania Demo Team Candidates

[1] PRESENTATION "SHORT LECTURE"

Simulated presentation on what LSIA can bring to the world of ski teaching. Followed by questions from the selection committee about the presentation. The key question to everyone: "What will you bring to the team and why should you be a part of it?" Individual task.

[2] SYNCHRONIZED SKIING AND CHOREOGRAPHY

Preparation of a simple synchronized skiing routine for 4 skiers. The team prepares the routine and then performs it on snow. Both the final routine and its technical execution, as well as teamwork during the task, are evaluated. The team is then split into pairs and shows short-radius synchronized skiing with alternating leaders. Team task.

[3] INTRODUCING A COLLEAGUE AND BEING INTRODUCED ("SMALL TALK")

Motivational discussion in pairs "on the lift" aiming to find out as much information as possible. Simulation of a real situation at the congress to maximize connections with international teams. This is followed by introducing a colleague on camera and explaining why they should be part of the team. Individual task.

[4] PREPARATION OF A PLAN FOR "ON-SNOW WORKSHOP"

Creation and presentation of an "on-snow workshop" on a technical or teaching concept of LSIA in a member team. Communication within the group and the final idea are evaluated. Team task.

[5] MUTUAL EVALUATION AMONG CANDIDATES

Candidates anonymously write down THE names of colleagues they think should become members of the Lithuania Demo Team. The selection committee takes into account the self-evaluation of candidates.
